THE ENORMOUS WORK

Of the War Department Described by Alger

IN A LETTER TO MR. DEPEW.

Almost Impossible For Outsiders to Realize the Task.

THE DIFFICULTIES ENCOUNTERED

In Reply to a Query From the Distinguished New Yorker the Secretary Recites Some Interesting Facts About the Army.

New York, Aug. 22.—Hon. Chauncey M. Depew has received the following letter from the secretary of war.

The letter, which was written in reply to a request for information on the subjects referred to, is as follows:

My Dear Mr. Depew-The great pressure of husiness bas up to now prevented me from sending to you the statement you were kind enough to ask for as to what had been accomplished in the way of outfitting the army for the field, the conduct

of the campaign, etc.

Also, the chiefs of division have been too much driven with work to compile the data required. One not in the midst of the work can hardly realize what an under-taking it is to call 125,000 men into the field at one time, coming from all the states, and to have them mustered and gathered in camps on so short uotice, and this, too, when we had scarcely any camp outfit for their accommodation, all having to be provided for by the war department.

As you know, when war was declared there was no equipment whatever for the volunteers in store. That this was successfully accomplished, with very few accidents, is a matter of record. Subsequent cais, including the regular

army (which numbered about 27,000 when war was declared), made a total of 268,500 men. To accomplish all lu so short a tline has been a great work.

Of course, gathering this vast number of men together, in a large measure under untrained regimental and company commanders-I mean in actual field dutythe lack of knowledge as to saultary conditions to be observed, the carelessness in not observing instructions which were furnished as to proper care of the men, has added greatly to the work of the medical department.

Thus from the homes of 216,000 volumteers has been constant and great anxiety as to what inight happen to their soldier, and hundreds of inquiries made by letters and telegrams have been received every day concerning individual soldiers.

The feeling on the part of these individuals that the war department is responsible for the care of the men individually has naturally aroused sympathy in case of sickness and death, and has created much

the contrary until stricken with disease. Every effort has been made from the be ginning to furnish every camp with all appliances asked for, but of course the commanding officers in the field are the ones to have the direct charge of these

For instance, one army corps commander has given orders and enforced them, respecting sanitary affairs, and he has but a fraction over 2 per cent on the sick list Others have been less successful, and the consequence is typhoid and other fevers have been bred aud spread to a consid-

erable extent. A MODEL CAMP.

One regiment in the Chickamanga camp has a colonel who enforces sanitary rules in his regiment, obliging the men to boil all the water they drink, keeping the camp cleanly, and the result, less than 25 sick, and his camp too in as unfavorable a place as any in the command. Others more favorably situated have ten

times that number on the sick list. Concerning the Santiago campaign, when the ships left Tampa they had, on board tbree months' provisions and an abundance of hospital supplies. They had lighters to unlead with at point of debarkation. These lighters were jost in severe storms on the way. As soon as we were notified of the fact, two tows of lighters were sent from Mobile and New Orleans, which were also overtaken by storm and lost. LIGHTERS WRECKED.

The navy supplied us with lighters and one of these was wrecked. The army disembarked, getting off a portion of its supplies and medical stores, and immediately marched to the front to fight the Spanlards. The great difficulty of landing supplies subsequently was hie wind aprang up every morning at 10 and made a high surf, rendering almost impossible the use of small boats with one lighter which was

ail they had left for this purpose. Of the packers who were employed, 60 per cent soon fell sick, and heavy rains falling every day, the roads (if they could be called such) became impassable for vehicies. Pack animals had to be employed to carry food to the army, which being extended to the right around Santiago in creased the distance from the coast every and made the task more difficult. However, the result and the subsequent sickness that has broken out in the army showed the great wisdom of General Shaf-

ter in moving forward to make the attack while his men were in vigor. It was a movement hordering audacty, but it succeeded and the p reistence of the attack, I have no double, greatly ity, but it succeeded and the

disheartened the Spaniards. The result was one of the greatest vic tories for the men engaged of modern warfare. The number of prisoners taken exceeded the attacking force by nearly two to one.

DREADED YELLOW FEVER. When yellow fever broke out and the fever list increased into the thousands, it

was for a lime supposed that it was principally yellow fever. The bringing of troops north at once after the surrender, under such conditions, would have been certain death to n vast number, but, upon inquiry it was ascertained that very few of these cases comparatively were yellow fever, when it was st once decided to bring the army home as speedlly as pos-

Everything that human ingenuity could devise has been done to succor that army—not the ingerulty of the secretary of war, but the result of the combined connsel of those who have had a life-long experience in the field.

That some men have been neglected on transports coming home there is no doubt -all against positive orders, due perhaps to carelessness and negligence, but largely on account of not having the medical force to space (many of whom are sick) from the camp at Santiage. Many medical of-

meers sent with fransports were taken in on the way home.

To give you a little idea of the work that has been done, I append the following: The work of the adjutant general's department has been to muster and order to their statiou 216,400 volunteers, and 24,900 for the regular army. This with a reduced force, as many staff officers from all of the departments had been promoted and ordered to the field.

The chief of engineers reports an expenditure of \$5,830,000 for harbor defenses, building emplacements for heavy guns, mortar batterles and mines.

SURGEON'S WORK. The surgeon general has had the enormous work of fitting up hospitals, organizing the medical corps, employing male and female nurses, contract surgeons, being surgeons who are employed from civil life, besides those commissioned as corps, division and brigadier surgeous, furnishing medical supplies and answering the demands from all over the country and from camps at Santiago, Porto Rico and Man-illa. The work done in this line is almost beyond compreheusion.

The commissary general had purchase and distributed, up to August 1,110,907,235 pounds of rations, which have been trans ported and c'stributed to all armies in the field here ned at Santiago, Porto Rico and Manilla, besides the large quantity dis-tributed among the destitute Cubans.

The quartermaster general's report is too long to even give an approximate idea of his work. In the way of transportation to Honolulu, Manilla, Santlugo and Porto Rico, and return home, there have been sent 82,638 men, with artillery equipment and supplies. By rall in this country there have been transported 9.700 officers, 2:13,962 ealisted men, also 40,582 unimals, besides thansands of wagons, artillery and other quartermaster, commissary, ordnance, medical and signal service stores.

CLOTHING DISTRIBUTED. The total number of articles of clothing and camp equipage distributed to the army

by the quartermaster's department has been 6,274,483, of which I can only mention a few articles as follows: Blankets, 288,739: blouses, 283,762: trousers, 406,423 hats, 334,106; canvns field uniforms, 83,200; •hoes, pairs, 511,378; undershirts, 736,965; tents, 179,142, etc., etc.

The total weight of food and forage distributed daily to the army is approxi-mately 900 tons. Added to this is the fleet of transports chartered and large purchased, the management of the same lu conveying troops, supplies and ammuultion.
The paymaster has promptly paid the army, and is deserving of very great credit for his work.

The signal corps has provided most effl cient service, furnishing cable, telegraph, telephone and signal services to the different commands in the field.

If you had a day or two to spare, I would like to sandwich in a little work for you. I would like to send you these statements in detail, which I think would

bewilder you, if anything can.

Riotous Scenes Repeated. Newport News, Va., Aug. 22.-The riotous scenes in Newport News last Thursday, when it was feared a negro would be lynched for killing a member of the One Hundred and Sixtieth Indiana regiment, were repeated in Phoebus. A saioonkeeper named Tucker shot John J. Corcoran, a seaman from the coliier Cassius, who attempted to forcibiy enter his barroom. A large crowd of sailors and soidiers threatened to iynch Tucker, but he was taken away by three officers at the point of their revolvers and iodged in Hampton jail. Afterward the mob of sailors and soldiers broke into Tucker's saioon and broke everything. A detail or regulars from Fortress Monroe was sent to queli the disturbance. Corcoran's injury is not serious.

Burled at Sea. New York, Aug. 22.—The hospital ship Oiivette, which proceeded from Hampton roads to Camp Wikoff upon orders from Washington, arrived at Montauk Point, N. Y. Captain John A. Bobb, assistant surgeon of the Thirtyfourth Michigan, died Aug. 19 of remittent malarial fever and dysentery. J. A. Perry, private of company A, First Illinois volunteers, died on Aug. 20 of remittent malarial fever and dysentery. Both were buried at sea on the afternoon of Aug. 20. A vast improvement in the majority of the cases of those ill on the Oiivette is reported.

Left Camp Thomas. Chickamauga, Ga., Aug. 22.—The movement of troops from Camp Thomas was begun when immediately following the departures of Brigadier General Sanger and his headquarters, the First Georgia and the Thirty-first Michigan, comprising the First brigade, Second division, First corps, commanded by General Roe, were ordered transports Peru and Puebla, having on out. These regiments marched to Rossville, a distance of six miles, and Hughes, arrived here. There was no loaded there, leaving late Sunday night for Knoxviile, the camping place.

Left For America.

Washington, Aug. 22.-The following cablegram from General Shafter has been received by the war department, dated Santiago: "The Yucatan. with 500, Seventh infantry; Santiago, with 500, Thirty-fourth Michigan, and the Hudson, with 500, First district of Cojumbia, have departed."

Rio Grande Arrives.

New York, Aug. 22.-The transport Rio Grande arrived at Montauk Point and anchored off shore to wait for the heaith officer of the camp. She has men of the Ninth and Tenth cavairy on board.

Sagasta's Adsurd Clalms.

Washington, Aug. 22.-Premier Sagasta's claim, as set forth in Madrld dispatches, that Spain will expect indemnity for all government property. buildings, barracks, fortifications, in Cuba, Porto Rico and eisewhere, has excited much comment, as showing the difficult questions to be treated by the military and peace commissions. In official quarters here there is no disposition to make a counter claim to Sagasta's proposition, for this will be done in duc time before the commissions, and there is no purpose to outline the government's poiicy in advance. At the same time, leading officials express their individual opinion that Premier Sagasta's claim is very far fetched, as it is said to be the established rule of international iaw that ali public property of a sovereign government passes to the conqueror when a change of territory occurs. The rule is equally well established that private property undergoes no change. The question is somewhat complicated in the present case by the fact that Cuba and Porto Rlco are not acquired strictly by conquest, but rather by mutual agreement. In case of a conquest no question could arise as to the passing of all forts, barracks, reservations, etc., aiong with the conquered terri-

To Repair Our Ships.

Hongkong, Aug. 22.—Consul General Wildman has requested of the Hongkong authorities permission for the snips of the American fleet now at Manifia to be allowed to dock and repair here. The question presents such serious complications that it had to be submitted to the British home government for an answer. Meanwhile the harbor police ordered the gunboat Zafiro, which arrived here with dispatches from General Merritt and Admiral Dewey, to leave British waters within 24 hours.

Views of Silvela.

Madrid, Aug. 22.—Senor Silveia, now the virtual leader of the Conservatives, expresses the views of that party on the capture of Manilia in the following statement: "The capture of Manilia in no wise affects the rest of the archipelago, and the cortes should be summoned with urgency in order to prevent the world gaining the impression that Spain has iost her sovereignty in the Philippines. The Liberal party should conclude peace, but the Sagasta cabinet can not effect the task."

Ordered to Washington.

Washington, Aug. 22. - Admirals Sampson and Schley have been ordered to report to Washington, and it is expected they will reach here Monday. As they have been appointed to serve respectively on the Cuban and Porto Rican commissions, their visit here will afford an opportunity to meet their associates on these commissions, and to discuss with the authorities the general policy to be maintained by this government on the Spanish evacuation of the West Indies.

Field Day Sports.

Chickamauga, Ga., Aug. 22.—The field day exercises on Snodgrass field, for which preparations have been in progress for some time, were witnessed by practically the entire Camp Thomas army and hundreds of civilians. The exercises were the first of a series decided upon by General Breckinridge to furnish sport and c'version and athietic training for the

A War Concert. Cincinnati, Aug. 22.-One of the unusual features of the thirty-second national encompment, Grand Army, in this city, S pt. 5 to 10, is a war concert to be given on the first three nights of encampment week at Music bali. Three prominent local choral organizations will participate. The most powerful of them is the United Catholic choir. Alternating with this will be the Orpheus club of 150 voices and the Cambro-American Choral society, comprising 150 trained voices. The chorus will be supported by Weber's Military band of 50 pieces. It is now settled that Commander-in-chlef Gobin, who is the commander of Camp Aiger, will be here on a leave of absence during the encampment week.

'Naval l'romotions.

Washington, Aug. 22.—The president has made the following promotions in the navy: Commodore John A. Howeil, to be rear admiral, vice Rear Admiral Charles S. Norton, retired; Lieutenant Cameron M. Winslow, to be advanced five numbers on the list of lieutenants for extraordinary heroism; Lieutenant Edwin A. Anderson, to be advanced five numbers on the list of ileutenants for extraordinary heroism.

Pope's Receptions.

Rome, Aug. 22.-The pope held a reception in honor of his saint's day. Many prelates, nobles and representatives of Catholic associations were in attendance His holiness appeared to be in good health and spirits. He was the recipient of a large number of gifts.

Flames Devour the Bultdings Before Guests Can Escape.

Little Rock, Aug. 22.-Six persons ing of the principal hotels, the National and Windsor, at Hot Springs, six persons perlshed.

Five bodies of persons that had been burned were recovered from the ruins. John Hudgins of ludian territory was killed by jumping from an upper hotel window. Only two of the other bodles have been identified, their names being Abe Matthews of Greenville, Miss., and W. H. Weils, residence unknown. Not until after the coroner's inquest can the names of the other dead belearned. A number of persons were injured by jumping from the hotel windows. In addition to the two hotels, a cottage belonging to Colonel O'Brien and the Kentucky livery stable were burned. The two hotels suffered the destruction of all their contents, but the horses and carrrlages in the livery stable were taken out safely.

The fire started about 2 a. m. in the National hotel and spread rapidly. A number of guests escaped down the stalrway, while others jumped from the windows of the second and thirl stories in their night clothes.

THE CORN HARVEST.

Let It Be Thoroughly Cured Before Put in the Shock.

H. H. Gratz, the oldest farmer editor in Kentucky, gives the following observation and advice in his paper, the Lexington Gazette:

"We recall the weather of the summer Squire Ryan of Washington Saturday, of 1858 as being very similar to this. and was recommitted to jail in default of Warm rains continued, extending into bail to answer at the next term of the the fall until latter October. A very fine crop of corn was raised that year, like the present one. The ripening was decepthere last week by Policeman Wallace and ive. While the blades and shucks dried, the stalk and cob was full of sap when the corn was put in the shock. After this the weather continued warm and damp, and the result was that 75 per cent. of that great crop rotted in the

> "Watch closely the conditions at harvest time next month. Allow it to stand until it has thoroughly matured, even at the cost of losing much of the fodder. Better that than risk the loss of the corn. The yield of the present crop will be large in this State, but it must be borne in mind the acreage is a very small one.

"A word to the wise is sufficient. Don't put your corn in the shock until it has safely matured."

Mayence, Hesse, Aug. 22.-Emperor distinguished visitor at the review was Emperor William, guest of Duke of Hesse.

It is his first visit to the city since his accession. Mayence is en fete and briiliantly decorated.

On leaving the train the emperor proceeded on horseback to a triumphal arch at the castie gate, where the chief burgomaster delivered an address of welcome to his majesty.

Emperor William, replying to the address, said:

I thank you, wershipful hurgomaster, for your cordial words. I am not a stranger to your city. When here as a boy, I conceived ideas similar to those you have just expressed. The holy Roman empire of the German

peoples fell hecause it was not hull on a national foundation. Its decadeace was due to lack of patriotlam and cohesion. The German empire of today areas ont of a strongly felt need of union and of a common head, and it reared itself upon

the basis of love of Fatheriand.

I am firmly determined to preserve with all my strength the work of my grandafther, and that peace which is so dear to us

I shall always be mindful of the fact that it was from the house of my dear cousin, where I am now a guest, that my grandfather started on his westward march during which, with a firm hammer stroke, he weldes the German empire. I thank you for your friendly reception and for these beautiful decerations I beg also to thank you my fellow citizens.'

Emperor William then shook hands with the burgomaster amid the cheers of the muitltude and rode off to the reviewing ground.

The Cincinnati Leaf Tobacco Warehouse Company, ln its circular for the weck, has the lollow-

All the buyers having returned after their vacation, the breaks took their usual aspect during the past week, and while the offerings were not very large, they were fair in size, considering that this is a short crop year.

Prices for low and medium grades were in about the same range as they have been, the former, if anything, somewhat higher. The better goods were not as strong, but we can hardly quote a decline, rather an irregularity in bidding, because in many instances excellent sales of the goods were made. A very good feature of the week's market was the fact that there was certainly an improved tendency and it elosed stronger than it opened.

The sales having been very light during the two previous weeks, stocks naturally increased somewhat, but if our reports are correct, most packers will soon be through shipping, and, with anything like liberal sales, there will be no further accumulations.

Recent raius must have produced considerable changes in the outlook for the new crop. If they have extended through the Biue Grass region where the crops are generally ready to cut, some damage will surely result, but in other sections the late setting will be greatly benefited and we think that in quantity an average crop is in sight. What it will be in quality remains to be
